

VacSure

SAFETY MULTI-SAMPLE NEEDLE

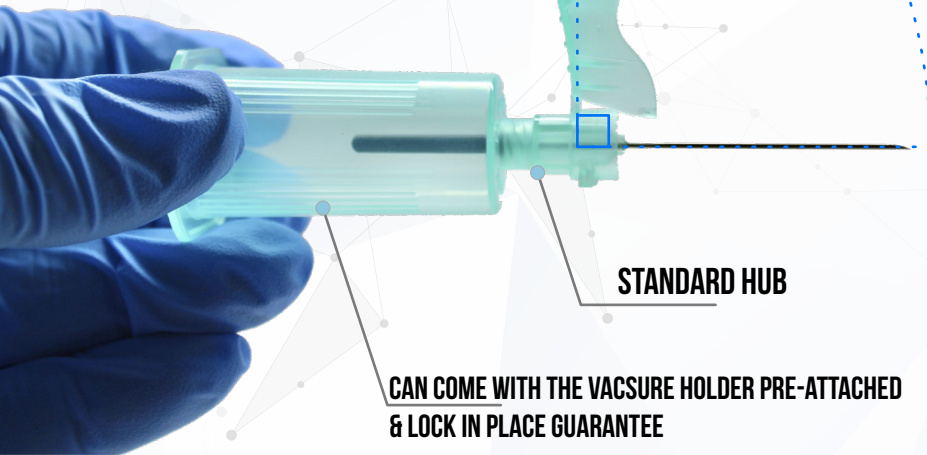

ULTRA SHARP NEEDLE

• Our **VacSure Needle** is a medical high activity grade silicone, stainless steel needle with a diamond cut beveled edge. Our needle is harmless to human skin & perfect for blood collection. Our silicone coating provide lubricity and a protective coating for the skin in dermatological treatments and pharmaceutical applications.

PERFECTLY ALIGNED WITH BEVELED EDGE OF THE NEEDLE

ERGONOMIC DESIGN

STANDARD HUB

CAN COME WITH THE VACSURE HOLDER PRE-ATTACHED & LOCK IN PLACE GUARANTEE

The **VacSure Safety Multi-Sample Needle** provides streamlined and effective injection safety.

- **Activation** that requires virtually no change in clinical technique for easy integration.
- **Designed** to specifically reduce the risk of accidental needlestick injuries.
- **Allows** for shielding of the needle tip immediately after injection, with single finger stroke or can be use on a flat surface for safety activation.
- **Audible click** confirm activation to support your safety.

ASSEMBLE

Screw **VacSure Safety Multi-Sample Needle** into any needle & tube holder until it's completely secure.

CLOSING ON FLAT SURFACE

Put the **VacSure Safety Shield** of the needle on a flat surface. While holding the needle holder, apply gently pressure to the shield until a click sound is heard. The **VacSure Safety Multi-Sample Needle** is completely secure and ready to be disposed on a Sharp Container.

CLOSING WITH ONE THUMB

Put the thumb on the **Edge of VacSure Safety Shield** of the needle. While holding the needle holder with the other fingers, apply gently pressure to the shield until a click sound is heard. The **VacSure Safety Multi-Sample Needle** is completely secure and ready to be disposed on a Sharp Container.
